no coal export

Dear U.S. Army Corps of Engineers, WA Department of Ecology, and Cowlitz County,

I strongly oppose the construction of a coal export terminal at Longview, WA which would transport coal on trains and ships throughout the Northwest. This proposal would negatively affect my community by increasing congestion and noise with more coal train traffic, polluting our air and local waterways, harming existing businesses, and delaying emergency responders. It would also damage aquatic ecosystems and fishing areas on the Columbia River, increase tanker traffic and the potential for shipping accidents and spills, expand strip-mining in Wyoming and Montana, and escalate climate change. I urge you to consider these impacts in the scope of the Environmental Impact Statement.

Thank you Larry L. Whitsett

I'm concerned that the trains through Spokane will
pollute the area from blowing ~~into~~ coal dust
But most of all this coal will be burned in
other countries I contribute to global warming and
also will continue to pollute our lakes - Rivers & fish
Please study the impact of coal to our area from coal
dust & how the mile long train will
affect our ability to get emergency vehicles - Fire engines
Ambulance & police across the tracts when there needed.

POWER PAST COAL
communities against coal export
